WHAT IS THE SLICE ?

SLICE Worldwide is an international multidisciplinary conference dedicated to stroke treatment.

This digital event concerns the treatment and care of strokes. This congress brings together:

- Neuroradiologists
- Neurologists
- Anesthetists
- Emergency doctors
- Nurses
- Technicians
- Junior doctors

The objective is to allow a multidisciplinary discussion and rewarding debates around the theme.

EDUCATIONAL PRACTICAL

After 5 years of an in-person format, the congress toward a digital version in 2020, in order to allow all practitioners to participate. The distribution tools offer maximum visibility to stakeholders in the speciality.

In fact, the congress is:

- Free
- Broadcast online
- Accessible on catchup,

During the first digital broadcast, SLICE Worldwide accumulated more than 85,000 views over the 3 days of congress. Viewing figures over the year are even more significant because SLICE is broadcast on catchup.

OCTOBER 18–19, 2023

MAIN SESSIONS

THE STROKE GAME / RECORDED

Presentations of case resolutions in the form of a “serious game”. Step by step, from the emergency call to the resolution on high fidelity silicon models in the angiosuite, the members of the SLICE Academy will work along with faculty members to solve these real cases reconstitutions.

MY BEST TECHNIQUES

Discussions on stage between the faculty members and the SLICE academy, about good practice to adopt. The aim is to get tips and tricks.

SYMPOSIUM

In order to make the symposia more attractive, SLICE offers the promotion of partners in the form of:
LIVE (speaker onsite) conference,
Quiz with the participants on stage - the SLICE Academy.

DELPHI CONSENSUS

Debate on the issues encountered by the whole community. During these discussions, specialists highlight their opinion based on practical experience and debate with the other specialists present.

The essence of the debates is summarised and registered as the best practices to adopt.

WORLD THROMBECTOMY MAPPING SERVICE

The goal is to identifying the geographical dynamics of access to thrombectomy worldwide and improve the stroke network worldwide by understanding needs.

START-UP MOMENT

Dedicated moments for start-ups to pitch.
